CHART II

This chart is essentially the same as CHART I, with the following changes.

Students are provided with one week's break between Phases II and III. They also receive one week's break after Phase III if they continue into Headquarters courses. If they continue directly on with ROC at [redacted] they get no week's break. 25X1

A further advantage of this scheduling is that courses, while they are not run quite as frequently, still are scheduled closely enough together to take care of a large demand.

This chart also illustrates a variation in the spacing of the Staybehind Course.
